CWJ has differentiated tech and manufacturing capabilities

- Nation's largest provider of cold brew on tap with both full-service & supplier capabilities
- Large scale FDA certified roasted coffee and beverage production facility
- Single source provider for alt beverages on tap: cold brew, kombucha, tea & seltzer
- cwj.io order mgmt and delivery software
- Large distribution network with internalized distribution and partnerships across US
- Premium Mid-Atlantic specialty coffee brand
- Demonstrated track record with Fortune 500, SMBs, and Channel Partners

UBER

Our origins are rooted in family tradition and love for specialty coffee

CWJ was founded on the premise that Robbie Peck (CEO) wanted to help Julia Peck (Mother & Master Roaster) to share their passion for freshly-roasted coffee, and to utilize more than 15 years of roasting experience to make amazing coffee approachable and accessible to more people.

Award-winning coffee fuels everything we do

We take pride in our process and strong manufacturing capabilities

CWJ has a high output FDA registered facility in Beltsville, MD and NSF-rated equipment for quality control and food safety. Industrial roasting and brewing equipment capable of packaging and recycling hundreds of thousands of reusable kegs per year with additional space to grow. Existing formats include keg, bag-in-box, and cans. Currently brewing cold brew, tea, and seltzer products with capability to expand formats and beverage offering.

Award-winning cafe near Amazon HQ2 serves as an innovation hub to rapidly develop and test new products with customers

BEST BEST BEST BEST of D.C. of D.C. of D.C. of D.C. of D.C.

CWJ has been voted Washington City Paper's Best of DC – #1 Best Coffee Shop for Four Consecutive Years (2016 - 2019). At our café in Arlington, VA, we are known for our Nitro Cold Brew, whole bean coffee, and unique handcrafted beverages.

Last-mile refrigerated installation, delivery & service capabilities enable to us to provide enhanced customer experience

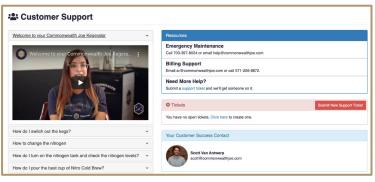

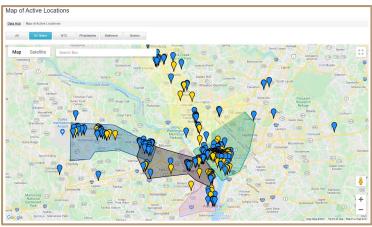

Our internalized distribution capabilities in the Mid-Atlantic and team of highly trained cold brew technicians allow us to control the quality of our product, reduce outages and respond to service requests quickly, and ensure a great customer experience. We can also provide training and support to Channel Partners to help them enhance their internal capabilities.

Proprietary software increases customer retention and satisfaction. cwj.io enables greater efficiency, reduced costs, and improved cash flow.

- Strong, integrated ecosystem with process automation Centralized data warehouse with integrations to important software applications, e.g. Delivery App submission triggers QuickBooks Invoice creation triggers auto payment
- 2 Intelligent route planning and optimization Increases route density and improves unit level economics
- 3 **Centralized Order Management**All orders across different systems converge in cwj.io so B2B & D2C orders can be fulfilled in a timely, efficient manner
- 4 Self-Service Enablement
 Customer Portal improves retention and increases customer satisfaction. Customers can place one-time and recurring orders, create support tickets, troubleshoot issues and manage payments.
- Real-time data reporting Enhanced business intelligence improves quality of decision making and enables accurate demand forecasting

We play in multiple formats to reach customers Away-From-Home and At-Home allowing us reach office workers in and out of the office, adapting to changing customer behavior and market dynamics
